

How it Works

1 Assistance is Needed – Simply push your Alert Sentry button! *Note: If you have the Fall Detector* option, you will have an added layer of protection, as the button will automatically place a call for help if a fall is detected and you are unable to push your button.*

2 Speak with our Trained Operator – Our U.S. based Alert Sentry operator will assess your situation and get you the help you need.

3 Help is on the way – Our operator will dispatch the appropriate emergency services – medical, police or fire – immediately. If your situation is not urgent, the operator will contact a family member or neighbor as directed by you.

Why Alert Sentry

Since 2003, Alert Sentry has been offering Safety at the Push of a Button, 24 hours a day, 365 days a year! When you experience a fall, medical issue or other emergency, seconds count! Delayed medical care can jeopardize your recovery and independence! Be Prepared!

Unlike most of our competitors our pricing is published, transparent and guaranteed never to go up, ever! This is why choosing Alert Sentry is the easy choice...

Alert Sentry offers a system for everyone. Whether you stay mainly at home, go for walks and downtown, or travel across the country we've got you covered!

The Alert Sentry Difference
